

The Meaning of a Metaphorical Life Understood Through Identity and Remembrances

The book that you have in your hands is a life, a part of a life. The author, younger i.P. audAx, was only a teenager at the time, with teenager thoughts and a youthful way of looking at things. She was an adolescent cross between who we now know as Cher/Lady Gaga and Martin Luther King Jr./Gandhi, a unique combination. There were none before her and there will be none after her that could compose a book like this. You may not understand it, and even if you do understand the basic facts alone, you may still not understand how she thought. Surely, no one could ever fully understand someone else's life without having lived it. Some things are shared, and just as many have fallen through the cracks, retained only by memory, which can be faulty at best, but there's no one else who has them but her. She is no longer with us and cannot speak for herself, so even though I am the elder part of her, I do the best I can in making sense of the life she remembered the time she remembered it.
