

The Purpose Of The Audition: This Is How It Goes

I've written *The Purpose of The Audition* as an actor. That is who I am. I live the life of an actor every day. I audition, I test for Pilots, and I fight for roles in studio films. After putting my all into my audition and not being offered the role, the rejection is excruciatingly painful. This whole notion of it's just an audition and on to the next one yeah right. Let's keep it real, it's about getting the work. Isn't that why you take classes and study your craft? This book is for actors who want to bring out his/her full potential when they audition. Knowing how to audition is extremely important. Acting is a very very competitive business. You can be the best actor in the world, but if you can't get beyond the audition room, no one will ever care. This book shows an actor how to enter the audition and be in Command of the room or stage. 95% of all actors are eliminated at the door, as soon as they walk in. The producers already know they can't bet their money on you. You see it's hard to feel confident when you're not sure about what you're doing. This book shows the actor how to utilize my 7 Crucial Steps to empower themselves and release the amazing actor in you. I have been a successful actor for over a decade in Los Angeles. I have Guest Starred on some of the most popular TV shows, and starred in some of the most successful films to date. I strongly encourage everyone to google me.
