Imagine having to tell your childhood best friend that her husband has been killed in a traffic accident and he wasn't along and the women in the car with him at the time of the wreck was naked? That's where Garrett, a graduate teaching assistant finds himself. This all happens while Garrett is helping teach an undergrad course called Communication Between The Sexes for an often absent professor. His own bride, Hope, can't understand how Garrett knew about the dead husband's cheating ways but never said anything about it. The students have all kinds of questions about how men and women communicate and Garrett is trying to understand it himself as he substitutes for the professor who is having a crisis in his own marriage at the moment.
