

The Thinking Cats Guide to the Millennium

Ringer on: -why cats know more about the Y2K problem than humans, Whats the problem? People are the ones who created all this nonsense about dates. My own theory is that people live too long for their own good anyway and create imaginary problems out of boredom. I dont worry about Y2K at all. What really scares me, though, is the thought that Jerry Springer might go into reruns? -the term computer mouse. Youve got to hand it to those guys who invented the `mouse: Only a techno-nerd would invent a tool that eliminates all of us without opposable thumbs. A rare instance of rats creating mice. My advice to people worried about politics is to climb up on your computer and take a nap. If it hasnt passed when you wake up, wash your face and go kill a mouse. It always makes me feel better.
