

The Travellers Tool

When Sir Les Patterson at last agreed to wet his nib and set down on paper his guide for the modern man on the move he made his intention very clear: Im a mans man and I call a spade a spade, so if youre a bluenosed wowsler, a raving pillow-biter or a loony old lezzo with a face like a half-sucked mango, Id chuck this book away now because in the pages that follow I employ the direct, no-holds barred lingo of a serious Australian diplomat at the top of his profession and the height of his sexual powers. In The Travellers Tool Australias most articulate high-flyer lays bare the international lifestyle as he has lived it. The book is not only packed with practical advice, but is also, in Sir Less own words, as funny as buggery.
